DETAILED ACTION

Status of The Claims

Claims 1-12 are currently under Examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Shuichi, JP 02091943.

Shuichi discloses the preparation of alkyl salicylic acid derivatives obtained by reacting salicylic acid with a styrenic compound in the presence of a catalyst, such as an organic sulfonic acid. Thus, Shuichi anticipates the process described in claim 1.

Claims Objections

Claims 2-5 are objected because of its dependency from rejected claim 1.

Allowable Subject Matter

Claims 6-12 are found allowable over the prior art of record since no prior art teaching or disclosing the claimed compositions described in the said claims was found.
